Hmmm, probably. Seems like this is an NHPA issue, so we should have Mike there too.

Hi Allison –

Hope you are doing well! Thanks for doing the presentation at the NILWG conf on the new CEQ regs – it was really helpful!

I'm wondering if you could take a quick peek at the following response to comment for the Dewey Burdock project – (this is the project for which we did the NEPA functional equivalence memo).

We received comments in EPA's public process about the inadequacy of the Nuclear Regulatory Commission's NEPA analysis for its federal decision at the site. The EIS has been through NRC administrative review, in the DC Cir., remanded to the NRC and is back in the administrative process at NRC now.

Here is what I would like to say:

Ex. 5 AC/DP

Thoughts?

Thanks!
Erin
